prodentim is available as easily chewable soft tablets in bottles containing 30 servings one bottle would be sufficient for a whole month of dental protection according to official information it is recommended to slowly chew one tablet every morning the candies are instantly dissolved and work to reverse infections and promote dental flora

the more positive outcomes observed the more certain it is that prodentim can change people s lives it s also true that no treatment will be effective for everyone who tries it hence the return policy and the need to consult a doctor

well the way this works is pretty simple actually we ve always been told that bad bacteria are to blame for all dental diseases but upon a closer look scientists have realized that imbalance in the oral health is caused by the lack of good bacteria the population of good bacteria can be harmed by common dental products that might contain toxic ingredients this explains why teeth can thrive for thousands of years outside of the mouth while in our mouth they get ruined by plain chocolate in order to support the health of your teeth and gums you need to repopulate your mouth with good bacteria and provide a healthy environment for the strains to grow in prodentim is a doctor formulated mix that gathers 5 scientifically proven potent strains combining a total of 3 5

billion good bacteria into one revolutionary dissolvable candy this probiotic candy also targets your respiratory system supporting your body to stay free from allergies while also promoting restful sleep and good digestion
