

ISCC fees

Applicable from 01 September 2015

(The fees stated are net prices. VAT may be added.)

Fees for System Users (membership in the ISCC Association is not required to become certified)			
Type of fee	Fee classification		Fee
	Group A (turnover in metric tons per year)	Group B (turnover in € per year)	
1. Registration fee (one-time fee)	< 2.000	< 0,6 Mill.	50 €
	< 10.000	< 3 Mill.	100 €
	< 50.000	< 15 Mill.	150 €
2. Certificate fee (fee per certificate issued; usually invoiced every 12 months)	< 100.000	< 30 Mill.	200 €
	< 200.000	< 60 Mill.	250 €
	< 500.000	< 150 Mill.	300 €
	> 500.000	> 150 Mill.	500 €
3. Quantity dependent fee (for conversion units only)	Conversion units with ISCC membership (per metric ton of outgoing product declared as sustainable)		0,08 €
	Conversion units without ISCC membership (per metric ton of outgoing product declared as sustainable)		0,10 €
	Minimum quantity fee		100 €
<p>Group A (Farms/Plantations, Points of Origin, First Gathering Points, Collecting Points, Warehouses, Logistic Centers): registration and certification fees are based on the total turnover of material in metric tons by the registered operational unit per year (both sustainable and non-sustainable material).</p> <p>Group B (Conversion Units, Traders): registration and certification fees are based on the total turnover in EURO (€) per year of the registered operational unit (includes sustainable and non-sustainable material).</p>			
1. The registration fee is a one-time fee to be paid after the registration.			
2. The certificate fee is to be paid for each certificate received (usually ever 12 month). Under ISCC DE the certificate fee also applies for statements of conformity.			
3: Applicable for the amount of output material declared as sustainable by conversion units during the previous ISCC certification period (not including non-sustainable output). ISCC will invoice a minimum quantity dependent fee of 100 € per certification period of the conversion unit. This fee will apply in case the conversion unit declares zero sustainable output material or if the declared sustainable output amounts to less than 100 €. For conversion units which declare sustainable output amounting to more than 100 € for the certification period the actual quantity will be the basis of the quantity dependent fee calculation.			

License Fees for Cooperating Certification Bodies	
Type of fee	Fee
Annual license fee for cooperation (per Certification Body and cooperation agreement) with ISCC	2.500 € / year
