

ISCC – International Sustainability and Carbon Certification is one of the leading certification systems for sustainability, traceability and the reduction of greenhouse gas emissions. More than 3,000 companies in over 100 countries worldwide use the ISCC System. The ISCC certification ensures a sustainable production of biomass, the reduction of greenhouse gas emissions, no-deforestation and traceability throughout supply chains. ISCC can be applied to all types of feed-stock in the food and feed industry as well as the chemical industry and bioenergy market.

We at ISCC are looking for highly motivated professionals to complement our team at the ISCC head office in Cologne.

Operations & Impact Manager (f/m) – Sustainability Certification

Your tasks:

Continuous advancement of the ISCC System and steadily growing requirements demand for an efficient operational management, especially in the area of the accounts receivable. You will be responsible for the processing of business transactions, updating financial records and monitoring the receivables. This includes preparing and issuing invoices, supporting the internal database management as well as the compilation of statistics and financial reports. Furthermore, you will resolve outstanding payments by contacting customers, investigating circumstances of non-payment and expediting payments.

Communication with ISCC system users and cooperating certification bodies regarding the implementation of the ISCC System will also be part of your tasks, as well as the participation in ISCC's advancement by continuously improving and developing the ISCC System.

Furthermore, you will be responsible for the continuous monitoring of the ISCC impact as well as the setting up of the annual ISCC Impact report and support in the field of quality management of the ISCC System within the ISCC Integrity Program.

What we are looking for:

ISCC acts on the global level and maintains close contact with its customers all over the world. Therefore, the job requires a high level of proficiency in English and German (both written and spoken). Additional languages will be of advantage. A qualified candidate should be able to think entrepreneurially and be good with numbers and should have a university degree in business management, economics, law, environmental or sustainability studies and preferably first working experience in the areas described above.

We also require computer literacy and excellent knowledge of the standard software (Word, PowerPoint, Excel), as well as the willingness to occasionally travel within Germany and abroad. High commitment, reliability, strong customer and team orientation, flexibility and good self-organization are the personal attributes we expect in a successful candidate.

What we offer:

At ISCC you will join a committed, dynamic and international team within a pleasant working environment. The job offers cross-functional tasks in the field of sustainability. The activities at ISCC cover environmental, economic and social sustainability aspects as well as the respective legal framework. Flat hierarchies and short decision patterns are a key feature of the organizational structure of ISCC. The ISCC office is centrally located in Cologne with close distance to public transport and train stations. A KVB Jobticket will be provided.

Please send your job application in English with your earliest possible starting date and salary expectations to Myriel Camp: hireing@iscc-system.org
