What is the ISCC licensing scheme about?

- **Enabling** brand owners to communicate about certified finished goods
- **Empowering** consumers to make more responsible purchasing choices
- **Establishing** a common language
- **Ensuring** traceability of finished goods at the end of the supply chain
- **Creating** trust

Examples of currently valid ISCC licensees

examples

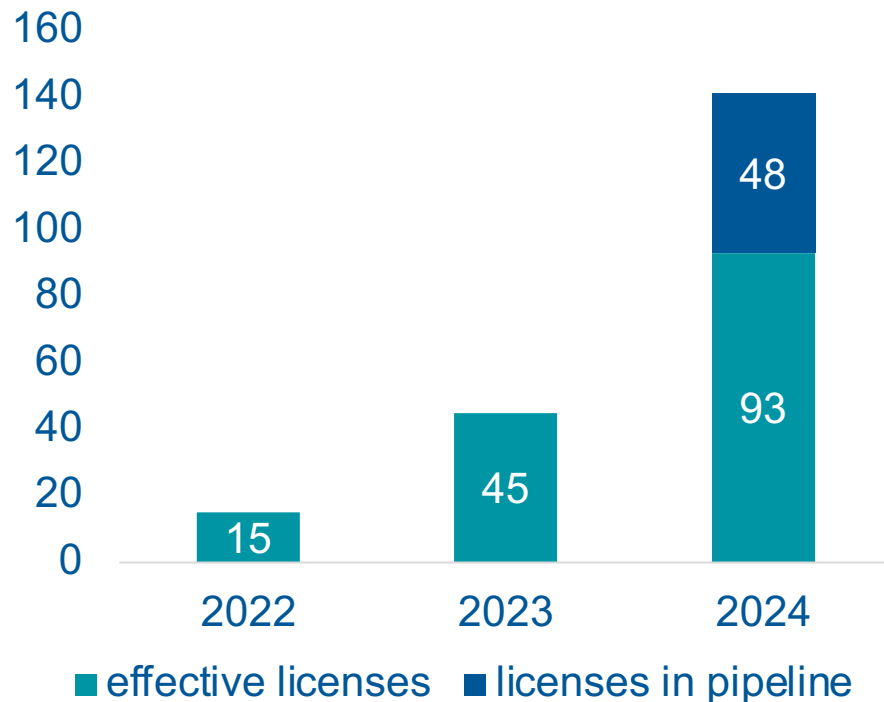

The use of ISCC logos and claims in final markets is increasing

1500+

ISCC certified products on the market

ISCC PLUS now recognized in the **Climate Pledge Friendly** program on Amazon (Germany, France, Italy, Spain, UK, US)

Product Certification (1)

ISCC PLUS certified products are created using raw materials like recycled plastics and bio-based materials, which can reduce fossil fuel consumption.

The number of ISCC certified products is increasing

Single Use Plastic Directive & Status ISCC PLUS

DRAFT SUPD Implementing Decision

Brussels, XXX
[...] (2023) XXX draft

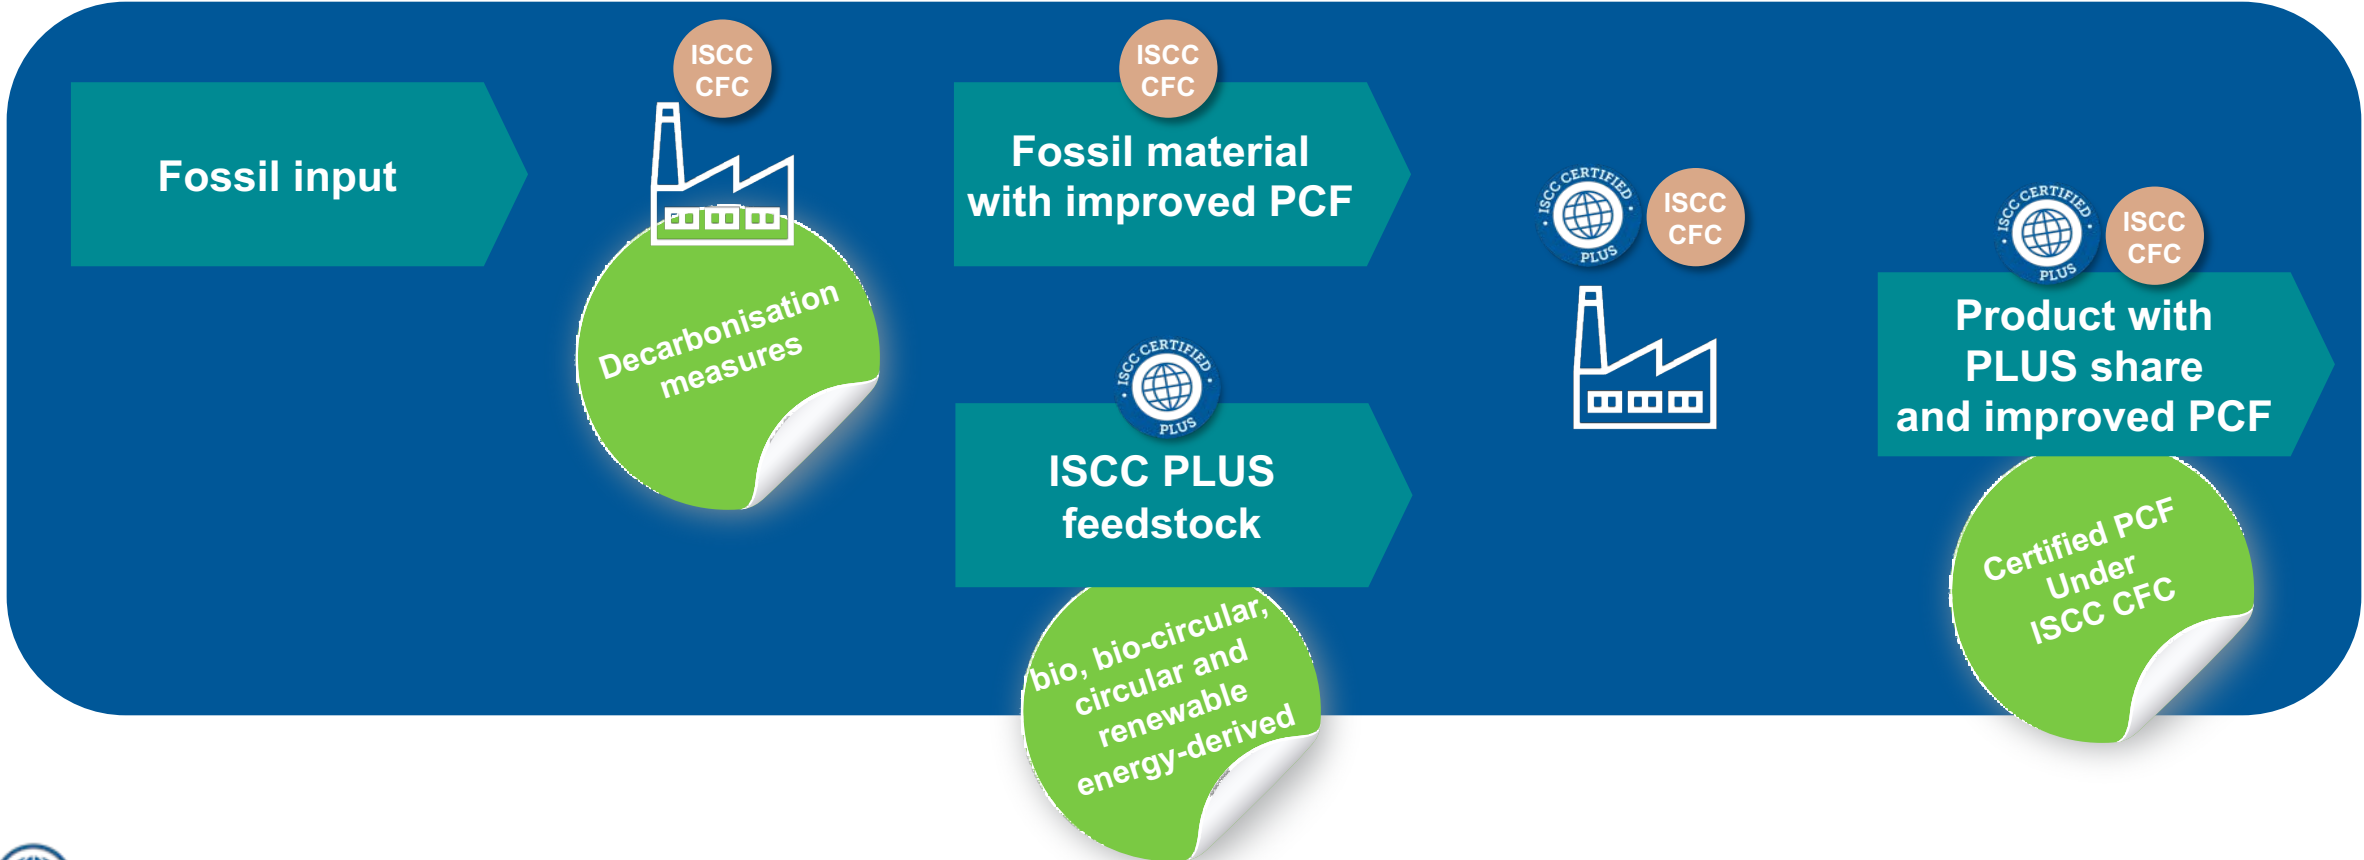

COMMISSION IMPLEMENTING DECISION

of XXX

laying down rules for the application of Directive (EU) 2019/904 of the European Parliament and of the Council as regards the calculation, verification and reporting of data on recycled plastic content in single-use plastic beverage bottles, repealing Commission Implementing Decision (EU) X/X

- Several pilot audits on fuel-use excluded and practical implementation – ISCC PLUS is prepared for implementation
- Attribution options integrated to ISCC PLUS v3.4.1
- Additional Mass Balance Guidance to be developed
- Intensive dialogue with regulators and stakeholders

The ISCC Carbon Footprint Certification (CFC) will allow to assess the environmental benefit of products independent of the feedstock
