

# ISCC Technical Stakeholder Meeting – Sustainable Marine Fuels

1<sup>st</sup> February 2024

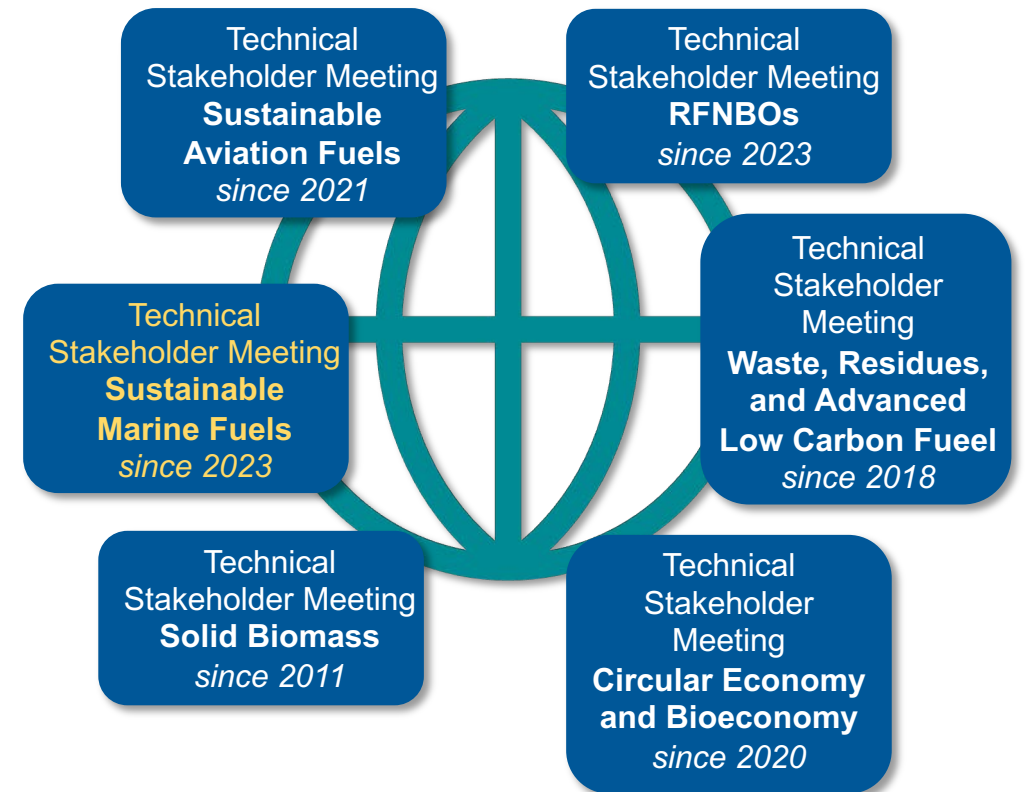

*Data as of January 2024*

# Stakeholder Meetings are crucial for stakeholder dialogue and take place regularly

## Regional Stakeholder Committees

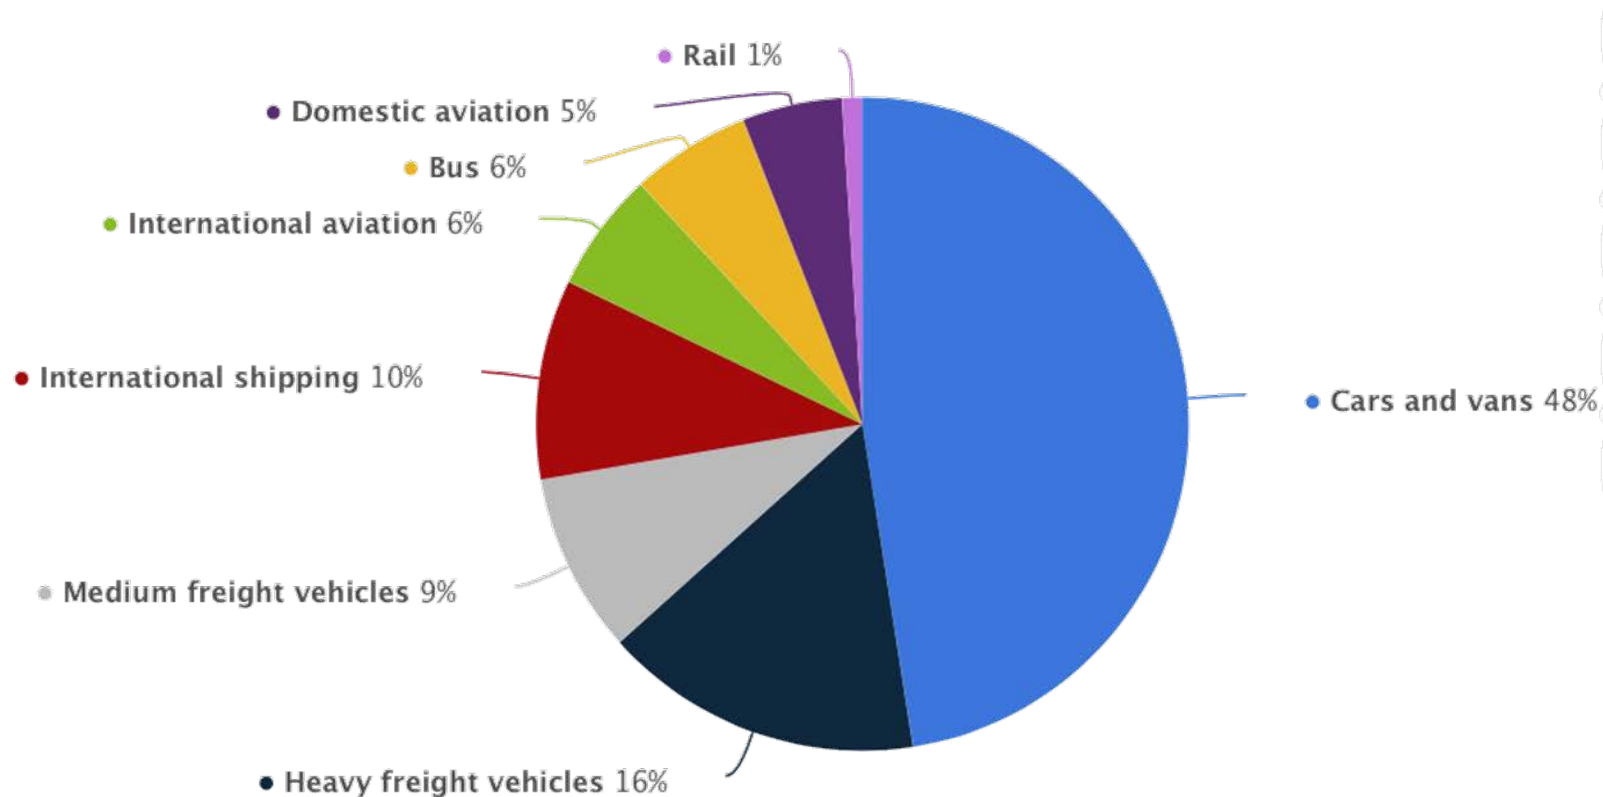

## Technical Stakeholder Committees

# Shipping accounts for around 2% of global GHG emissions and 11% of global transport emissions. It is the most efficient transport mode, but long distances make its emission reductions relevant

GHG emissions produced by the transportation sector worldwide in 2020, by subsector

# Agenda
