obviously the higher your engagement rate the more successful brands will consider you and the higher they will be willing to pay it is difficult to find overall engagement rates for tiktok all the published ones appear to wrongly equate engagement with the percentage of people opening the app once a day however like most social media networks you can calculate your individual tiktok engagement with the following formula number of hearts number of comments number of followers x100 you can calculate this either for a single post or overall we suggest that you add together the figures for your last 20 posts when you make this calculation overall there is no set magic number of followers needed to make a living on tiktok the essential factor is the strength of your following sure the more followers you have the more likely that some will buy your or your sponsor s products but they will only take notice of you if you re a genuine influencer i e you have to make your followers sit up and take note of your videos accounts with 500k to 1 million followers have the highest average engagement rate overall what is a tiktok coins generator tiktok coins generator is an exclusive tool that allows you to get tiktok coins codes for free it is super simple to use and we are sure you want to learn how it works this revolutionary process will ensure that you never need to worry about tiktok coins again
