if you click on a dice link and it doesn't even open in monopoly go then that's a different issue from our experience there can sometimes be teething troubles when you try to open a dice link on an android device when you click on a link in your browser you should get a pop up menu asking you to open in another app

**to redeem one of the links above simply click on it on the device you have monopoly go installed on when you click on the link in your browser you'll be taken to a new webpage and asked if you want to open it in monopoly go**

**active dice links are regularly shared on monopoly go's official instagram and facebook accounts keeping an eye on these accounts ensures players can redeem links for free dice rolls however players should check the validity of dice links before redemption as they come with expiration dates**

monopoly go also rewards players with free dice through the app's daily login bonus which can be claimed every eight hours more dice rolls can be claimed each day as well by completing objectives in quick wins and when you connect your monopoly go profile to your facebook account or your phone's contact list

if this doesn't happen and the link instead opens in a separate tab on your browser try refreshing that page and see if the pop up menu appears alternatively try clicking on the link again and see if that triggers the menu if none of these troubleshooting tips work try opening up the monopoly go app so it's running in the background then head back here and try clicking on the link again to see if that kicks things into gear
